			6	½ yearly		

The State and County School bonds, above recited, are not, strictly speaking, a debt of the State. They are irremediable; the fund is inviolate; and the 6 p. c. semi-annual interest drawn by these bonds is provided for out of the five cents of revenue placed to the credit of the sinking fund annually. There are also outstanding, in addition to the before described bonds, \$394 old railroad scrip, past due; \$5,000 of the old 30-yr. issue of 1835, past due over 30 years; \$1,000 of an old issue made from April, 1841, to April, 1846, also long past due. These \$6,394 bonds have not been heard from in many years, and are supposed to be lost or destroyed. They can hardly be considered as part of the present bonded debt of the State. The Military bonds were issued from Aug., 1864, to Jan., 1866, and are held by the Agricultural and Mechanical College at Lexington. Interest on Military bonds payable at the State Treasury, Frankfort, Ky., and in New York City; on the certificates of indebtedness at the United States National Bank, New York.

History.—In 1812 the Territory of Orleans was admitted into the Union as the State of Louisiana. The State seceded Dec. 23, 1860, and was readmitted into the Union July 13, 1868. Area, 45,420 sq. miles. Pop., 1890, 1,118,587; 1900, 1,381,025. Ass'd val., 1899, \$267,723,052; 1900, \$276,568,507; 1901, \$301,215,222. For statement by parishes showing the area and population (1890); State population at decennial periods since 1810 and assessed valuation for certain years, see previous issues of the Manual.

Statement of bonded debt, March 1, 1902: \$11,800 consol. 7s (Act 3 of 1874), stamped 4 p. c., due Jan. 1, 1914; \$10,764,300 new 4s (Act of 1892) due Jan. 1, 1914, and \$101,700 Constitutional bonds (issued in lieu of consol. bonds), due Jan. 1, 1914—total interest-bearing debt, \$10,877,800. The three issues of bonds mature Jan. 1, 1914; interest January and July, at office of Winslow, Lanier & Co., New York, N. Y., and at New Orleans National Bank, Ibernia National Bank and Louisiana National Bank, New Orleans, La.; also at Bank of Baton Rouge, Baton Rouge, La.

The Act of 1892 provides for the exchange of newly printed and engraved bonds of the State for valid outstanding consols. These new bonds bear the same rate of interest as the others, and mature same date as the old bonds. Interest payable in New York, New Orleans and Baton Rouge. The object of the Act was to exclude from circulation certain bonds that had been fraudulently issued and to provide a bond free of alterations stamped thereon—the consols of 1874 being 7s, but stamped 4 p. c.

 Floating debt \$536,413.

The 4 p. c. Constitutional bonds are dated July 1, 1892, due July 1, 1942, are for \$500 and \$1,000 each; interest payable by T. Wolfe, Jr., R. 5, City Hall, N. Orleans; Winslow, Lanier & Co., N. Y. These bonds were issued to refund the present outstanding bonded debt, other than premium bonds, into a uniform 4 p. c. interest-bearing bond. Payment of principal and interest of these bonds and of the premium bond is provided for by a special 1 p. c. tax upon all property in the city of New Orleans, real and personal, and is a contract right of the bondholders. The premium bonds are for \$20 each, payable to bearer, and bear 5 p. c. interest from July 15, 1875. Each bond increases in value 50 cents semi-annually,

until the 50th year, when they represent in principal and interest \$70 each. The bonds are divided into series of 100 bonds each, and drawn for every Jan., April, July and Oct. The sinking fund till the year 1925 will average \$204,960 annually, to pay the principal of \$4,937,940 of premium bonds, now extant, which are payable before any of the Constitutional bonds can be called for redemption. After that date \$500,000 of the Constitutional bonds will be redeemed annually till 1937, and from the year 1937 till the maturity of the bonds, July 1, 1942, \$700,000 will be redeemed annually, which will extinguish the entire bonded debt of the city. The premium bonds were authorized by an act of Legislature, which does not allow any increase of debt until they are paid. The assessment provision for the protection of the bondholders was published in the Manual for 1896, page 1365. The rate of taxation is 2.2 p. c., 1 p. c. for the bondholder, 1 p. c. for the city's alimony, and 0.2 p. c. for sewerage and water tax. No default made in payment of interest. Authority, T. Wolfe, Jr., Sec. Board of Liquidation.

Total city funded debt as above (excluding \$977,000 school bonds), \$5,020,250; city certificates outstanding, \$38,121—total outstanding indebtedness, \$5,058,371; annual interest charge, \$239,777. Of the total bonded debt, \$2,356,000 is a special lien upon the city's water and light plant, the surplus earnings of which are applied to the payment of the interest on the indebtedness and the creation of a sinking fund therefor. The city of Duluth has, therefore, a bonded debt other than the indebtedness of the water and light plant amounting to \$2,702,371. All assessments levied previous to adoption of present charter (March 8, 1900) are being credited to the sinking fund. The charter provides for levy of one mill for sinking fund; this produces approximately \$25,000 per annum on the present valuation. Of the

city's total bonded debt (\$5,020,250), \$1,486,000 bear 4 p. c.; \$1,063,000 bear 4½ p. c.; \$645,250 bear 6 p. c.; \$1,818,000 bear 5 p. c. and \$10,000 bear 7 p. c. interest.

Assets and Liabilities, Jan. 1, 1902.—Bonded indebtedness, \$5,020,250; improvement certificates, \$38,121; floating debt (orders outstanding), \$13,153; balances, \$10,716—total liabilities, \$5,082,241. Contra: Cash in bank, \$223,700; due from assessments, \$165,884; accrued interest on same, \$19,662; taxes, 1900 and previous years, \$65,383; taxes, 1901 levy, \$430,238; due from county "assessment," \$87,262; department inventories, equipment, \$182,858; fire department, real estate and buildings, \$153,700; miscellaneous real estate, etc., \$734,038; water and light plant, \$2,356,000; water and light plant extensions, \$115,652; Park Boulevard system, \$547,803—total, \$5,082,241. Excess of assets, \$10,716. Cash on hand, \$61,911; cash in hands of county under special act, \$45,948; assessments due, \$110,936—total, \$218,796. The charter provides, as an additional source of revenue for the sinking fund, a tax of one mill, which produces approximately \$25,000 per year on the present assessed valuation of real and personal property. Bonds, except refunding are coupon for \$1,000 and \$500 each. Interest on city bonds payable in New York as follows: On Duluth Gas & Water Co. 6s at Central Trust Co., on West Duluth 6s at Nat. Park Bank; on all other bonds at American Exchange Nat. Bank. Interest on School District 6s of 1904 by Farson, Leach & Co., New York; on Lakeside general fund at Duluth; on all others at American Exchange Nat. Bank, New York. The refunding bonds are not strictly a liability of the city, as they were issued by the village of Duluth under a special act of the Legislature which provides that the County Commissioners of St. Louis County shall levy a special tax to pay the interest on them and provide a sinking fund to meet them at maturity. The city's debt is limited by charter to 5 p. c. of assessed valuation. No default has ever been made in payment of obligations. Authority, W. S. McCormick, City Comptroller.

Floating debt, \$27,126. Interest payable at City Treasury and at National Revere Bank, Boston. School district bonds are coup. The police station bonds, the park bonds, the sewer of 1904, widening Pleasant St. extension bonds, and the \$5,000 Penacook sewer bonds of 1913 are tax free to residents of Concord. The school district bonds were issued under authority received by legislative enactments, which provide for placing in the city treasury from time to time a sufficient sum to meet the principal and interest of the bonds as they shall become due.

The Penacook sewer bonds were issued in accordance with city ordinances, which provide that the annual interest and a portion of the principal shall each year be placed in a sinking fund to redeem the bonds as they mature, as follows: \$500 annually for ten years from Aug. 1, 1888, to Aug. 1, 1898; \$1,000 annually for five years to Aug. 1, 1903; \$1,000 annually for five years to Aug. 2, 1908; \$1,000 annually for five years to May 1, 1913; and \$500 annually for six years to July 1, 1920.

The West Concord sewer bonds, in accordance with city ordinances similar to those under which the Penacook sewer bonds were issued, have sinking fund provisions as follows: \$500 annually for ten years to Oct. 1, 1902; \$1,000 annually for five years to Oct. 1, 1907; and \$1,400 annually for five years to Oct. 1, 1912. The city's property on Jan. 1, 1902, was valued at \$246,642, in addition to the water works valued at \$823,004, the property of the Precinct. The income from the water works plant more than pays the interest on the water bonds. This city has never defaulted in the payment of any of its obligations. Authority, Geo. K. Hazeltine, City Auditor.

Cash in sinking fund, \$32,800—net debt, March 1, 1902, \$3,202,971. The bonds purchased by the sinking fund are immediately cancelled and the receipts of the fund kept constantly invested. Bonds are city tax-free.

Interest was defaulted Feb. 1, 1879, and a compromise was effected by which the adjustment bonds were issued to exchange for the old 7 p. c. bonds turned in at 50 p. c. of their face value. All the fees for liquor licenses and R.R. tax money received from the State go into the sinking fund by law, and amount to over \$70,000 annually. The assets of the city consist of its power to levy and collect taxes.

The school buildings, not mortgaged, almshouse, city hall, engine houses, and the equipment of the municipality for local government, are not liable to seizure at the instance of the creditors, and are therefore not a form of asset in the common acceptance of the term. The act of March 17, 1881, gave the city power to refund its indebtedness.

The school bonds are issued in a mortgage form, with buildings and grounds as security, in addition to the general security of a city obligation. Authority, A. B. Carlton, Comptroller.

The Buffalo Charter bond issue of July 1, 1891, was for the purpose of paying the municipal expenses from Jan. 1, 1891, to June 30, 1891, and was made necessary by the change of the beginning of the fiscal year from Jan. 1 to July 1. They are payable in ten equal annual installments, nine of which have been paid.

On June 30, 1901, the total bonded debt was \$16,874,303; deduct from this the tax loan bonds of \$1,948,193 (which are not included in the 10 p. c. limit, and the sinking fund of \$977,688, leaves the net bonded debt, \$13,948,422.

Sinking fund: The terms of the city charter require that \$100,000 shall be raised annually, by taxation, for the payment of principal of bonds, and 1 p. c. of the park bonds outstanding is also to be included in the tax levy made each year. Warrants, payable from local assessments outstanding, June 30, 1901, \$51,076.

NEW YORK, N. Y.—The present city was formed by the consolidation, effective Jan. 1, 1898, of the county of Kings (including the city of Brooklyn), the county of Richmond (Staten Island), and a portion of Queens County (including Long Island City, the towns of Newtown, Flushing, and Jamaica, and a part of the town of Hempstead), with the former City of New York. The city is divided into five boroughs: the section of the old City of New York, known as Manhattan Island, together with Governor's Island, Bedloe's Island, Ellis Island, the Oyster Islands, Blackwell's Island, Randall's Island and Ward's Island, constituting the Borough of Manhattan; that portion of the old City of New York lying northerly or easterly of the Borough of Manhattan, between the Hudson River and the East River or Long Island Sound, including the several islands belonging to the old city not included in the Borough of Manhattan, constituting the Borough of the Bronx; the City of Brooklyn as consolidated in 1896, constituting the Borough of Brooklyn; Long Island City and the Queens County towns before-mentioned, constituting the Borough of Queens, and the territory known as Richmond County or Staten Island, constituting the Borough of Richmond. For latest published statements for the old City of New York, the City of Brooklyn, Kings County, Richmond County, the towns of Flushing and Hempstead, and Long Island City, reference should be made to the Manual for 1897.

Bonds marked thus (*) in foregoing statement are, in whole or in part, \$500 pieces; marked thus (†) are, in whole or in part, \$100 pieces or uneven amounts; all other issues are in \$1,000 pieces.

Total bonded debt as above, \$27,326,500. In addition there were outstanding on Dec. 31, 1901, \$57,094 street improvement 5 p. c. bonds, due at various dates, and \$8,987 street improvement 6 p. c. bonds due 1902 to 1905. The trustees of the sinking fund held street improvement bonds which are paid by special property assessment in addition to above, amounting to \$895,353, and the Board of Education 3½ p. c. and 4 p. c. bonds amounting to \$92,500—total, \$987,853—being applicable to redemption of general bonds preceding.

The Cincinnati Southern Ry. Trustees receive and pay \$1,250,000, same being present rent of the road. The water works income pays the interest on water bonds and sustains the water bond sinking fund. With these exceptions the care of the debt is a general charge on the city. The increase of bonded debt outstanding for the year 1901 was \$329,100, the total outstanding Dec. 31, 1900, being \$26,997,400.

From preceding amount must be deducted the amount of street, pavement, and sewerage assessment improvement bonds held in the sinking fund, being \$895,353. Board of Education of the city of Cincinnati bonds held in the sinking fund being \$92,500, and cash on hand uninvested in sinking fund being \$892,375, making a total of \$1,880,228, leaving a net liability of \$25,446,272.

The American Exchange National Bank, New York, N. Y., and the Third National Bank, Cincinnati, O., are the authorized agents of the trustees of the sinking fund of Cincinnati, and all bonds and interest coupons will be paid by said banks when due. Interest on the several issues of Avondale bonds is payable at the Fourth National Bank, Cincinnati, O.; on Clifton issues at Ohio Valley National Bank of Cincinnati; on Linwood bonds, Riverside bonds, and Westwood bonds, place of payment not reported.

No default ever made in payment of obligations. In March, 1900, an agreement was made by which the Board of Trustees of the Cincinnati Southern Ry. Co. were to have until July 1, 1901, to extend the time of payment of the Cincinnati Southern Ry. Co. bonds; if the bonds were not refunded by that time the Sinking Fund trustees to undertake the refunding. In a letter dated Dec. 2, 1900, the Trustees of the C. S. Ry. advised the Trustees of the Sinking Fund that they had determined not to exercise the power vested in them under Act of General Assembly of Ohio, passed April 25, 1898, to extend the time of payment of any of the outstanding bonds of City of Cincinnati issued for construction of Cincinnati Southern Ry. A new issue of 30-50 year 3½ p. c. (optional) bonds are to refund the C. S. Ry. bonds due in the year 1902. Authority, Louis Carroll, Secretary of Trustees of the Sinking Fund.

* Not fundable 20 years after date of maturity.

† Joint Resolution approved Dec. 22, 1891.

Interest on issues marked (a) is payable at the State Treasury, Columbia, S. C.; on those marked (b) at the State Treasury and also at the financial agency in New York; on those marked (c) at the State

Treasury, at New York, and at Charleston; on those marked (d) at the financial agency in New York, and on those marked (e) at New York, Columbia, S. C., and Charleston, S. C. The financial agency in New York is the National Park Bank; that at Charleston the South Carolina Loan and Trust Co.

The bonds and stock issued prior to 1867, including the valid part, 1st issue, of Interest Public Debt bonds, and valid part of the Conversion bonds, also the interest to July 1, 1893, are fundable at 50 p. c., principal and interest to July 1, 1893, in new 4½ p. c. bonds, authorized by act, 1892, and interest payable from July 1, 1893. There are also valid bonds issued subsequent to 1866, which are fundable under the same acts upon like terms.

The funded debt now recognized as valid is provided for by Acts of Dec., 1873, to reduce the volume of the public debt, Dec. 24, 1878, for the funding of past due interest; Dec. 24, 1870, and Feb. 19, 1890, for the funding bills of Bank of State; and of March 22, 1878, for the funding of claims prior to Dec. 1, 1876. The bonds authorized by Acts of 1889 and 1890 were for the purpose of retiring the Brown consols before maturity, but owing to the rigid requirements of the act very little progress was made in exchanging.

All these were represented by consols Brown and Green (the latter containing some invalidity), and \$15.11 deficiency stock, the last fundable in Blue 4½ p. c. bonds. Under Act of 1892 Brown consols and valid portions of Green consols and interest as stated, fundable at par in new Brown 4½ p. c. bonds. Bonds formerly fundable at 50 p. c. off in consols, now fundable in New Brown 4½ p. c. bonds.

The Act of Dec. 22, 1892, provided for the redemption of that part of the State debt known as the Brown Consol bonds and stocks by issue of other bonds and stocks. These bonds bear interest at 4½ p. c. per annum from Jan. 1, 1893, payable on July 1 and Jan. 1, in currency, at the State Treasury, Columbia, S. C., or at the agencies of the State, viz.: at South Carolina Loan and Trust Co., Charleston, S. C., and at the National Park Bank, New York, N. Y. The principal of the coup. bond and stock certificates of this issue becomes payable at the end of 40 years from Jan. 1, 1893, the State reserving to itself the right of anticipation, after the expiration of 20 years from the date of issue, on the terms and conditions expressed or endorsed on the bonds and certificates. The coup. bonds and stock certificates are exchangeable, the one for the other, on their presentation at the State Treasury, in Columbia, S. C. The bond and stock certificates of this issue are free from all taxes, State, county and municipal, and are secured by a lien on the phosphate beds of the State and a cumulative sinking fund derived from the phosphate royalty. The sinking fund amounts annually to \$75,000, and is to be invested in these bonds if obtainable at a reasonable price. The interest is secured by levy on the taxable property of the State, and the interest coupons and the principal at maturity are receivable for taxes due the State in same year except tax for the support of the public schools.

Constitutional Limitations, etc.—See Manual for 1896, page 1477.

Indebtedness of Cities and Towns in the State of South Carolina.

CHARLESTON, Charleston Co.—Incorp.—town in 1783; city in 1836. Pop. 1890, 54,955; 1900, 55,807. Ass'd val., 1901: R., \$12,397,928; P., \$5,111,973—total, \$17,509,901. Tax rate per \$1,000, 1901—State, \$0.50; school, \$1; city, \$30—total, \$40.50. Real estate assessed about 40 p. c. actual value. Included in the city tax (\$30) is \$3 for the So. The College Loan is all held by the Trustees of the City College.

The above bonds were issued mostly to retire 6 p. c. stock issued for railroads and improvements. Interest payable at the City Treasury. Coupons are receivable for taxes. Article 8, Sec. 7 of the State Constitution, ratified Dec. 4, 1895, provides that "No city or town in this State shall hereafter incur any bonded debt which, including existing bonded indebtedness, shall exceed 8 per centum of the assessed value of all the taxable property therein." A recent

Act of Legislature has given cities in the State the privilege to issue bonds beyond the constitutional limit for the purpose of water, light or sewerage, after being voted for by the qualified election. No default has ever been made in payment of any obligation of this city. Authority, J. O. Lea, City Treas.

COLUMBIA, Richland Co.—Incorp.—town in 1790; city in 1851. Pop. 1900, 26,373. Ass'd val., 1892: R., \$3,254,105; P., \$1,703,196—total, \$4,957,301.

Estimate of actual value, \$10,000,000. Tax rate per \$1,000, 1892, \$10. Funded debt (latest returns), \$852,186 30-yr., \$100, \$500, and \$1,000 coup. bonds due July 1, 1910, interest Jan. and July, at the office of the City Treasurer, and \$75,000 6 p. c. 1st mtge. Water bonds, issued in 1891 and due Jan. 1, 1921, int. Jan. and July.

The bonds of 1910 bear 3 p. c. to 1900, and 4 p. c. thereafter. The coup. bonds are free from city tax and the interest on them is payable at the City Treasurer's office. The coupons are receivable for taxes except water rates. The city's water works are valued at \$800,000, and the water works income is in excess of the interest on water bonds.

Default was made on bonds prior to 1876 during the period of "reconstruction." The present bonds were issued to fund city debt. The city's power of creating debt is limited to one-eighth of the assessed valuation.

STATE OF SOUTH DAKOTA.

History.—See North Dakota. Admitted into the Union Nov. 2, 1889. Area, 76,850 sq. miles. Pop. 1890, 328,898; 1900, 401,570. Ass'd val., 1900, lands, \$101,720,020; town lots, \$18,100,798; P., \$39,207,012; RRs., \$12,741,397—total, \$171,769,827; 1901, lands, \$103,000,659; town lots, \$17,702,162; P., \$39,093,516; RRs., \$12,916,028—total, \$172,712,365. Increase in valuation over 1900, \$942,538. For statement showing, by counties, the area, population (1890), and valuation (1893), as also assessed valuation, taxation, etc., of the State, see previous issues of the Manual.

Tax Levy.—Extract from the report of the State Auditor for 1895-96: "The provision for a two mills levy for general State purposes is not sufficient under our present system of assessment, and the amount of interest paid out on funding and revenue warrants annually is a constant reminder of this fault. The plan of levying a deficiency tax every second year is not a business-like proceeding, and the Legislature should submit to the people an amendment to the Constitution providing for a change in this direction. An act providing that not to exceed three mills per annum and no deficiency tax might be levied, except in case of war or extraordinary requirements, would place things in a much more satisfactory condition. It would save thousands of dollars annually, which now go East as interest to holders of revenue warrants." Tax rate for 1896: For general fund, 2 mills; special sinking fund, 0.1 mill; 1895 bonds, 0.1 mill; for bond interest and sinking fund, 1.8 mills.

These certificates are for \$1,000 each, bear 5 and 6 p. c. interest, and are payable at pleasure of the holder. There are also about \$870,000 old bonds not yet presented for funding under the Settlement Act of 1883, chap. 84.

By the Compromise and Funding Act of March 20, 1882, the State funded its old bonds, with all accrued interest, at 60 p. c. of the face value, in new 30-yr. bonds of 1882, bearing 3 p. c. for 2 years, 4 p. c. for following 2 years, 5 p. c. for third 2 years, and 6 p. c. thereafter. In 1883 that act was repealed, and the debt funded in new 3s at 50 p. c. of the face value, except the old State debt proper bonds, bearing 6, 5½ and 5 p. c., which were exchanged for new bonds bearing 6 and 5 p. c. int., at 76, 79, and 80 p. c. respectively. By a decision of the Supreme Court of the State the Compromise bonds (principal and accrued interest to July 1, 1883) are fundable into new settlement 3s at five-sixths of their face value. Thos. F. MEMPHIS, Shelby Co.—Incorp. as a city in 1827. Pop. 1890, 64,495; 1900, 102,320. In Feb., 1899, through Legislative Act, considerable contiguous territory was annexed to the city. In 1879 the city's charter was repealed, the yellow fever epidemic of 1878 making it impossible for the city to meet its obligations promptly. The Legislature granted the charter to the taxing district of Shelby Co., Tenn., with power and rights to permit its residents to apply

the revenues of the city toward constructing a system of sewers, and to make such other improvements in sanitary matters. The taxing district was held by the courts liable for the entire debt of the city, but, under an Act of March, 1883, amended in 1885, a compromise of 50 p. c. was arranged. In 1891 the district was again incorporated as a city. The name of the government has since been changed to the City of Memphis. Ass'd val., 1901: R., \$32,186,827; P., \$6,024,717—total, \$38,211,544. Est. actual val. about 60 p. c. of cash value. Average tax rate per \$1,000, 1901, \$12.10 to \$18.50, according to wards. In addition, there is a special sewer tax of \$82.50, and a special improvement tax for streets of \$20 per \$1,000 in the entire city.

Bonded debt, Jan. 1, 1902 (total, \$2,980,000; annual interest charge, \$100,095): consisted of \$747,000 6 p. c. \$1,000 Flippin Compromise bonds, due 1907; \$886,000 6 p. c. \$1,000 Taxing District bonds, due 1915; \$1,247,000 4½ p. c. \$1,000 gold Taxing District Refunding bonds, due in 1926, and \$60,000 5 p. c. \$500 Market House bonds, due 1917, 1922, 1927.

The \$500,000 Market House bonds do not carry the general liability of the city, but are secured by mortgage on market house, buildings and grounds. In 1896, the 6 p. c. bonds of 1913 were refunded and 4½s issued. The law governing the city does not permit the creation of any debt of any kind other than the above, but requires \$1 on each \$1,000 of the annual taxes to be credited to a sinking fund for the redemption of the indebtedness. Cash in sinking fund, \$121,673. Net bonded debt, \$2,858,327. No floating debt.

Interest payable Jan. and July, on Taxing District Compromise bonds and Flippin Compromise bonds at Memphis Nat. Bank, of Memphis, Tenn., or Nat. City Bank of New York, N. Y.; on Gold Refunding Taxing District bonds at Memphis Nat. Bank, of Memphis, Tenn., or U. S. Mtge. and Trust Co., of New York, N. Y.; on Market House bonds at Memphis Nat. Bank, Memphis, Tenn. The bonds are all free from local tax.

The Flippin Compromise bond coupons are receivable for taxes. As to the conditions under which the tax levy is made, see Manual for 1896, page 1481. Beginning with 1889, an annual sinking fund of 1 mill is levied, to be applied to the purchase and redemption of the bonds.

An annual levy is also made to pay interest on the bonds. The present debt was created by funding the old bonded debt, and the then existing floating debt during the period from 1883 to 1887, at an average rate of 60.53 per cent. Authority, W. B. Armour, Sec.

The sum produced by this requirement amounted to \$100,815, and which left \$26,915, July 1, 1901, to take up the \$8,600 past due bonds not yet presented. Cash on hand, Jan. 1, 1902, \$253,834. Coupons are receivable for taxes.

Interest on water and light bonds is payable at National City Bank, New York; on all other issues at the office of S. M. Sveusion & Sons, New York, and at Austin. Bonds are all in coup. form, the 6s for \$500 and \$1,000 each, all others \$500 each. Of the above bonds, \$125,000 were issued prior to 1890 to take up outstanding indebtedness, principally for street improvements, and \$1,400,000 for the construction of water and light system, which is approaching completion.

Besides the tax levied for interest and sinking fund on these bonds, the entire revenues of the water and light system, when completed, are pledged for their payment. The water and light works will be owned and operated by the city for its benefit. For the first three issues no sinking fund is provided, and the interest is paid from the general revenue.

The city charter provides that the sinking fund be invested in bonds of the United States, the State of Texas, and the city of Austin, and that the bonded debt shall be increased only by a special Act of the Legislature, or by consent of two-thirds of the qualified voters who pay taxes on property in the city.

Sinking fund, \$27,696; net debt, Feb. 1, 1901, \$1,608,304. There is no floating debt. Interest on \$52,000 Refunding 6s has not been paid for 2 years on account of a court decision. No interest has been paid on Water and Light bonds since April, 1900. Authority, John O. Johnson, City Clerk.

All bonds are \$1,000 gold coup. Interest payable in New York at (*) American Exchange Nat. Bank; (†) at Chemical Nat. Bank; (‡) Chase Nat. Bank; (§) at Hanover Nat. Bank.

Overdraft on treasurer (6 p. c. int. yearly) Jan. 1, 1902, \$45,170—total indebtedness, \$545,170, less sinking fund (No. 1, \$19,991; No. 2, \$5,000), \$24,991; net debt, \$520,179.

Total bonded debt allowed is 4 p. c. of assessed valuation, but the State law legalized all indebtedness at the time Utah became a State, so that the amount of indebtedness in 1896, plus the revenue for any one year, becomes the debt limit beyond which Ogden cannot legally go. Said indebtedness of 1896 was: Bonded, \$510,000; floating, \$72,871—total, \$582,871. Present indebtedness being \$545,170, leaves this city within legal debt limit by \$37,701. No default made in payment of interest. Authority, W. J. Critchlow, City Recorder.

STATE OF VIRGINIA.

History.—The first State Constitution was formed in 1776, and the Constitution of the United States was ratified June 25, 1788. Seceded May, 1861, and was readmitted into the Union Jan., 1870. Area, 40,125 sq. miles. Pop. 1890, 1,655,980; 1900, 1,854,184. Ass'd val., 1898: R., \$311,385,460; P., \$102,886,723—total, \$414,272,183. Average tax rate per \$1,000, 1897, \$4. For statement showing, by counties, the area, population (1890), ass'd valuation (1893), as also statistics of State population, ass'd valuation, tax rate, etc., for a series of years, see previous issues of the Manual.

Revenue Account, year ending Sept. 30, 1900.—Balance on hand, Oct. 1, 1899, \$905,942.45; receipts during the year, \$7,739,267.92—total, \$1,345,210.37. Disbursements, \$3,550,875.33. Balance, Oct. 1, 1900, \$814,335.04.

Funded debt outstanding consisted, Oct. 1, 1900, of \$6,329,554 3 p. c. 50-yr. Riddleberger bonds (Act of 1882), issued 1882, due July 1, 1932, int. Jan. and July, and \$18,002,083 new bonds, Act of 1892 (details below)—total, \$24,331,637.

Sketch of State Debt.—See Manual for 1896, page 1490.

The Riddleberger Act provided for the funding of all outstanding bonds and interest thereon and including July 1, 1882, in new 3 p. c. 10-50-yr. bonds at specified rates below par, varying from 47 to 31 on the different classes. This law was amended, and all bonds offered for funding after Jan. 1, 1885, were required to carry the coup. of July, 1885. The bonds are coup. or registered, and are interchangeable. Under the Act of 1892 registered bonds are for \$100, \$1,000, \$5,000 and \$10,000 each, and the coup. bonds for \$500 and \$1,000 each. These Riddleberger bonds were the only part of the debt not disputed. They are

subject to call at any time after July 1, 1900. Interest payable Jan. and July, at Second Auditor's office, Richmond, Va.

The Legislature, in 1895-96, passed an act, re-enacting the Funding Act of 1892, under the provisions of which all old Virginia bonds could be brought in and funded into new bonds of 1891, on the same terms as those given for that act (see above), thus making coup. and registered bonds interchangeable. The Virginia State Sinking Fund Commission is authorized by the Legislature to invest the surplus revenues from time to time in bonds of 1891 or Virginia 3 p. c. to the extent of \$100,000 per month. The Funding Act of 1892 expired by limitation Dec. 31, 1896. By Act of Jan. 25, 1898, bondholders were given till July 1, 1898, to accept the terms stated above and power was given the Commissioners of the Sinking Fund to extend the time till Dec. 31, 1898.

West Virginia Certificates.—The State of Virginia, in the readjustment of its debt in 1871, put aside one-third, or \$15,239,370 funded certificates, as West Virginia's share. This obligation West Virginia repudiates and the matter remains at present unadjusted.

On July 28, 1898, an agreement was entered into between certain holders of the Virginia Deferred Certificates, whereby a committee consisting of John Crosby Brown, J. Kennedy Tod, George Coppel and Clarence Cary, was appointed to provide a plan for the settlement and payment of such certificates as might be deposited under the agreement. The Assembly of Virginia (by Act approved March 16, 1900) authorized the Va. Debt Commission to enter into a contract with this committee to effect a settlement. On June 13, 1900, \$6,455,426 Brown Bros. & Co.'s certificates of deposit of Va. Deferred Certificates (issue of 1871) were listed on the New York Stock Exchange.

Debt Limitation.—See Manual for 1896, page 1490.

The proceeds of \$800,000 of this stock will be used to pay for the construction of the branch from Punxsutawney to McKees, Pa., referred to on page 66, leaving \$500,000 for future extensions. Since then it has been thought advisable to further extend the system, about 38 miles, to reach coal lands near Vintondale, Pa., controlled by the Lackawanna Steel Co. of Buffalo. Of this additional extension, 18 miles to Black Lick Station on the Indiana Branch of the Pennsylvania R.R., are to be constructed by this company at an estimated cost of \$560,000, and an agreement has been made with the Pennsylvania R.R. Co. for trackage over the remaining 20 miles from Black Lick to Vintondale. It is expected that the branch will be completed in 1903.

There were bonds and stocks in the Treasury on June 30, 1902, amounting to \$27,403,170 at par value, but appearing on the books at \$25,742,136.30, and in addition there were in the Special Renewal Fund securities at par and cash amounting to \$503,708.33, the book value of which was \$403,922.08. There were also bonds and stocks of branch lines and the Utah Fuel Co., amounting to \$16,423,000 at par, carried on the books at \$9,477,063.52, deposited with The Morton Trust Company, trustee, as collateral for the 1st consol. mtge. bonds of the Rio Grande Western Ry. Co.

A contract was made with the San Luis Valley Land & Mining Co. for the construction and operation of the Crestone Branch, about 17 miles in length, extending in an easterly direction from Moffat, Col., to the mining camp of Crestone and beyond to a point called Cottonwood; the mining company to furnish all the necessary labor and materials, except rails and fastenings, which were to be furnished by this company, the mining company to be reimbursed for its outlay by monthly payments based on the earnings from traffic over, and to and from, the branch. The line was completed Aug. 21, 1901, and since that date has been operated by this company. This line was built under the charter of the Rio Grande Sangre de Cristo RR. Co., and therefore, the cost of the rails and fastenings furnished has been charged to that company, and the monthly reimbursements to the mining company are also being charged to the same company.

On account of the rich and extensive coal fields and the prosperous fruit growing farms along the north fork of the Gunnison River, this company found it desirable to construct what is known as the North Fork Branch, extending in a northeasterly direction from the town of Delta, Col. Twenty-five miles have been finished, and contracts have been let for an additional twenty-one miles; the cost thereof is being charged to the Rio Grande RR. Co., under whose charter the branch is being built. It is expected the line will be finished and ready for operation by Nov. 1, 1902.

The construction of the Castle Valley cut-off on the Rio Grande Western Ry. was commenced last spring. The surveys and location were completed and a contract was let for 21 miles of grading. The cut-off will extend from Parham on the main line to Salina on the Marysville branch, a distance of 116 miles, and when completed will afford a route 35 miles shorter than the present one to southwestern Utah. Important coal fields in the vicinity of Salina Canon and in contiguous districts can be opened up and the coal made available for commercial use to meet the growing demands for Utah fuel. The construction of the cut-off will be prosecuted from time to time according to the requirements of the various classes of traffic which it is believed can be developed in the territory to be traversed.

The standard gauging of the Denver & Rio Grande RR. was extended during the year from Monte Vista to Del Norte on the Creede branch, a distance of 14 miles, and over the Castle Rock Branch near Denver, 2.65 miles, which, together with other small extensions, have increased the standard gauge mileage about 18 miles. The policy of gradually strengthening standard gauge main lines was continued, and 6,081 tons of new 85-lb steel rail were used, on the D. & R. G. RR., replacing second-hand 65 and 52-lb rail for transfer to other parts of the road, to replace 30 and 40-lb rail. There are now about 310 miles of standard gauge track laid with 85-lb steel. No expenditures on the D. & R. G. RR. were charged to capital account except those for equipment.

There were issued and sold during the year \$2,400,000 of D. & R. G. RR. Co. consolidated mortgage 4 p. c. bonds for the purchase of new equipment.

There were ordered during the year for the D. & R. G. RR. 55 locomotives, 20 coaches, 3,750 freight cars, 150 ballast cars, and 14 cars for construction and road repair service, at a total approximate cost of \$4,072,000. Of this equipment, there were delivered and paid for during the year locomotives and cars amounting to \$2,165,908.25, charged respectively \$1,562,108.25 to capital account, \$500,000 to income, and \$103,800 to renewal fund.

The expenditures for improvements on the R. G. W. Ry. amounted to \$680,132.27, and for new equipment, in addition to that ordered for D. & R. G. RR., \$698,867.93, which were charged to capital account and paid for out of the proceeds of Rio Grande Western Ry. Co. 1st consolidated 4 p. c. bonds sold prior to June 30th, 1901.

During the past fiscal year the company refunded the 7 p. c. mortgage on the Boonville Railroad Bridge by the issue of an equal amount of its 1st mortgage 4 p. c. bonds. The sinking fund of the Boonville mortgage had resulted in retiring \$666,000 of the original issue and the M., K. and T. Ry. Co. receives the issue of new 4 p. c. bonds corresponding with the amount thus retired, diminished only to the extent of the premium paid for the

surrender of the 7 p. c. bonds held by the public. Arrangements were also made to retire the existing second mortgage upon the Missouri, Kansas and Eastern Ry., now consolidated with this system and known as its St. Louis Division. A refunding mortgage (see page 468) was authorized to the nominal amount of \$6,000,000, of which \$4,000,000 were lodged with the trustee to retire at maturity the first mortgage of same amount; \$666,000 were devoted to the retirement of the second mortgage, while the remaining bonds were rendered available to the company for expenditures incurred in improvements and betterments on the division covered by the mortgage. The proceeds realized from the sale of these two issues have been credited to an improvement fund for the creation of needed betterments to the company's property, of which \$423,731.57 were expended during the year. On June 30, 1902, there remained a balance of \$1,092,336.14 to the credit of the improvement account as appears in the general balance sheet.

MISSOURI, KANSAS AND OKLAHOMA RR.—The Missouri, Kansas and Oklahoma RR. Co., organized in Oklahoma, is constructing a line from Stevens, I. T., to Guthrie and Oklahoma City, O. T., with a branch through the Arkansas River Valley to Wybark, I. T., on the M., K. & T. main line, with a view of merging itself when completed with the M., K. & T. Ry. System. The total mileage is about 275 miles, and a further extension of the line from Oklahoma City southeast to a junction with the Coalgate Branch of the M., K. & T. Ry. especially

with a view of opening up new markets for coal, is also projected. On May 1, 1902, the company executed a mortgage to the Central Trust Co. of New York, as trustee, to secure an issue of 1st mtg. 5 p. c. 40-yr. gold bonds to the amount of \$20,000 per mile issuable against ten-mile sections of completed road. The bonds are for \$1,000 each, in coupon form, with privilege of registration. Principal and interest are guaranteed by the M., K. & T. Ry. Co., the guaranty being endorsed upon each bond.

In July 1, 1902, \$30,000 additional 1st mtge. bonds were issued to provide the means for building an extension from Virginia Beach to Cape Henry, Va., about 7 miles, making a total of \$1,880,000 1st mtge. bonds now outstanding.

NORFOLK AND WESTERN RY.—The report for the year ending June 30, 1902, shows an increase of 119.4 miles in length of lines operated, consisting for the most part of the Cincinnati, Portsmouth and Virginia RR., the Cincinnati Connecting Belt RR. and the Hillsboro Branch, all three of which have been deeded to the company and become part of its system. The Hillsboro Branch was taken over for operation on July 1, 1902, and the other lines named as of July 1, 1901. The average mileage operated during the year was 1,677 miles, as compared with 1,660 during the preceding year. The construction of the Tug Fork Branch, about 10 miles in length, was undertaken during the year, and on it will be located the coal and coke operations of the Coal and Coke Co. At the close of the year the branch was nearly completed and the United States Co. had large forces at work opening mines and constructing ovens.

At the time the company acquired its interests in the Pocahontas Coal Field, it also acquired control of the *Iaeger and Southern Ry.*, and of the *South West Virginia Ry.*, lines projected to penetrate the western part of the Pocahontas Coal Field, and of which about 6 miles were completed and in operation, and some 4 miles additional were graded. The line as now projected forms a junction with this company's main line at Iaeger Station, which is beyond the northern boundary of the Pocahontas Coal Field, and extends to a connection with this company's line near the southern limit of the Pocahontas Field, a distance of about 50 miles, the greater part of which will be through the Pocahontas Coal Field. Upon and tributary to this line are about 27,000 acres of coal land owned by the Berwind-White Coal Mining Co. of Philadelphia, an equal area owned by the Farraday Coal and Coke Co. of Pittsburgh, and about 32,000 acres of the lands owned by the Pocahontas Coal and Coke Co., but leased to the United States Coal and Coke Co. Surveys and negotiations preparatory to the construction of this important feeder are now in progress.

A second line is to be constructed from Nangatuck to Kenova, following the waters of the Big Sandy River. It will be about 60 miles long, as against a distance of 83 miles by the present line, and will have no grades against the traffic. About 35 miles of the line will be constructed as the Nangatuck Branch of this company's Ohio Extension, and the rest of it will be constructed under the charter of the *Kenova and Big Sandy RR. Co.*

The *Radford Southern RR. and Mining Co.*, projected to connect with this company's line at Radford, and to extend in a southerly direction to limestone quarries and ore mines on the New and Little Rivers, has been graded and prepared for the rails for a distance of about 5 miles, and its control has been acquired by this company.

It is proposed to acquire, by purchase, consolidation or merger, the railroad property and franchises of the *Iaeger and Southern Ry. Co.*, *South West Virginia RR. Co.*, *Kenova and Big Sandy RR. Co.* and *Radford Southern RR. and Mining Co.*, none of which properties are covered by any existing mortgage, except the *Radford Southern*, which has outstanding \$56,000 1st mtge. bonds, all of which are owned by the Norfolk and Western RR.

During the past fiscal year the trustee of the 1st consol. mtge. delivered to the company \$2,000,000 of the bonds issuable under Section 5, Article 1 of the mortgage, and these bonds, together with \$900,000 of like bonds held in the treasury of the company, were sold and the proceeds applied to partly reimburse the company for capital expenditures previously made. Of the 1st consol. mtge. bonds in the treasury, \$3,000 were used in acquiring \$5,000 undeposited bonds of the old company. These transactions increased the outstanding funded debt by \$2,968,000. Excluding \$19,750 of 1st consol. mtge. bonds remaining in the treasury, the funded debt outstanding June 30, 1902, aggregated \$53,079,750, the annual interest charge on which is \$2,414,610.

NORTH SHORE RR.—The North Pacific Coast RR. (see General Index) was sold in Jan., 1902, to R. R. Colgate, R. M. Hotaling, W. M. Pierson, C. A. Grow, E. J. de Sabla and John Martin, and these persons in Feb., 1902, reorganized the company under the name of North Shore Ry. Co. It is said to be the

intention of the new owners to improve and rebuild the road, transforming the line between Sansalito and San Quentin into an electric road, and putting on a high speed ferryboat to give quick connection between Sansalito and San Francisco. The capital stock of the company is \$6,000,000 authorized, but the amount paid in is not reported. On May 1, 1902, the company executed a mortgage to the Mercantile Trust Co. of San Francisco, Cal., as trustee, to secure an issue of \$6,000,000 5 p. c. 40-yr. gold bonds, due May 1, 1942, interest May and Nov., in San Francisco and in New York. Of these bonds, \$1,500,000 are reserved for the retirement of the 1st mtge. bonds of the North Pacific Coast RR. Co. at or before maturity, and \$2,000,000 are to be issued from time to time as required for additions, improvements and extensions; the remaining \$2,500,000 are reserved for the future use of the company. The bonds are for \$1,000 each, in coupon form, with privilege of registration.

The following statement shows the results from operation and the amounts outstanding of bonds and floating debt of the North Pacific Coast RR. for six months ending Dec. 31, 1901, and of the North Shore RR. for six months ending June 30, 1902; the returns for corresponding periods of the preceding fiscal year being shown for the sake of comparison:

Funded Debt.—The following changes have occurred during the year: The trustees of the sinking fund under the mortgage of the Wisconsin Central R.R. Co., dated Jan. 1, 1879, expended during the year \$642,885.87 in the purchase and retirement of 593 1st series mtge. bonds of the Wisconsin Central R.R. Co., all but four of which were sold to said sinking fund trustees by the trustees of the first general mortgage of this company, at its request. The amount received from the sinking fund trustees for said 589 bonds together with \$37,853.44 which still remained in the so-called collateral trust of Sept. 14, 1893, was applied to the purchase in open market, of first general mortgage bonds of this company to the amount of \$756,000. These bonds were cancelled and destroyed. Out of bonds of this company held by the trustees of its first general mortgage for the retirement of underlying mortgage bonds, there were used during the fiscal year for the purchase of \$5,000 outstanding Milwaukee and Lake Winnebago R.R. Co., Manitowoc Division, 1st mtge. bonds, \$5,000. The operation of the sinking fund under the mortgage securing bonds issued in payment of the purchase price of the Marshfield and Southeastern R.R., resulted in the cancellation of said purchase money mortgage bonds to the extent of \$5,000. The total amount of first general mortgage bonds now available for improvements pursuant of Section 4 of Article I. of the first general mortgage, but not drawn, is \$114,400. There is also due the company from the trustees of the first general mortgage, pursuant of Section 3 of Article I., fractional amounts of said bonds, aggregating \$600. The total amount of said bonds, therefore, due, but not drawn by the company, is \$115,000. In addition to the last mentioned amount, the trustees hold under Section 3 of Article I., of the first general mortgage of this company, \$2,345,000 of first general mortgage bonds, which are applicable primarily, under Section 3, to the retirement of underlying bonds, at or prior to maturity, any residue thereof not so needed being subject to be drawn by the company for improvements, equipment, etc., as provided in Section 4 of said Article I.

THE OFFICIAL GUIDE

of the Railways and Steam Navigation Lines in the
United States, Porto Rico, Canada, Mexico and Cuba

The Standard Publication used by all railway officials for business transacted between the several companies. The Lists of Officers and other information are corrected up to the date of each monthly issue.

The Editorial Department, in addition to general railway information, contains a monthly synopsis of the Proceedings of the Interstate Commerce Commission.

The Time Tables published in its columns are compiled directly from the Official Time Tables which are used by the employes, and from information furnished by the Officers in charge of Time Table Department of the several roads.

It contains, in addition to the Lists of Officers and their addresses, which are published at the head of the Time Tables, an Official List of the Officers in charge of General Passenger Department, with the names of the parties to whom remittances and on whom drafts for the settlement of such accounts should be made; the Official List of Designating Numbers assigned to the several transportation lines and used by the Passenger and Accounting Departments; an Official List of Purchasing Agents, with their addresses; a list of General Baggage Agents; a list of Railway Commissions of the various States, Traffic Associations, their Officers, etc.; also a table showing the Mileage of each road, and the Sleeping Car and Express Company operating over each.

The Index of Railway Stations contains the names of every railroad station in the United States, Canada and Mexico, with the State and the railroad on which they are located, corrected monthly. There is also a list of old and new names of stations, the names of which have been recently changed.

The standard of time by which each road is run is noticed at the head of each table, and in addition to this, a page is devoted to a table of the names of the roads running by the several standards. Upon the front page of the cover of the OFFICIAL GUIDE is a diagram showing the standards of time in use in the principal cities.

A large number of fine Sectional Maps, showing the lines of the several roads, appear throughout the book. Also a new dissected map, corrected to date, covering the whole United States, Canada, and Mexico (north of Vera Cruz). A full list of all names by which the various railroads in the country have formerly been known, with their present official titles, is also a feature. The gauge of each road is shown. Morning trains are distinguished from afternoon trains by varying the style of type.

Also Maps, Time Tables, and list of Offices of Railroad and Steamship Lines in **CUBA and PORTO RICO.**

TWENTY-TWO YEARS OF PROTECTION.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature,—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—“Twenty-Two Years of Protection.” To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

Preserve Your Woodwork

Money saved that way is twice earned. Keep a keg or barrel of "CONSERVO" in every section shop, and use it on ties, posts, timbers, and all other woodwork. CONSERVO is the result of over twenty years' experience in wood preservatives, and is the most efficient, as well as the cheapest and most economical to handle, on the market. Can be used hot or cold, without waste. Sample can sent to any railroad company, on request. Made only by

SAMUEL CABOT, Manufacturing Chemist, Boston, Mass., U. S. A.

STEEL TIRES

On Locomotive Driving Wheels and on Steel-Tired Wheels, give the best results for every variety of service.

The CAST-STEEL WORKS of FRIED. KRUPP, Essen, Germany, cover an area of 1,200 acres, employ about 27,000 men, have the most improved plant, and stand unique, from the fact that they have their own Ore and Coal Mines, Blast Furnaces, etc., and that *every* stage of manufacture is under their own supervision, and are not (like others), dependent on the open market for a miscellaneous assortment of crude material; which, in connection with 75 years' experience, enables them to turn out a product of a very superior quality, second to none, and at the same time the different grades of Steel are always of the *same uniform* quality.

**Crank Pins, Piston Rods, Spring and Tool Steel, Steel-Tired Wheels, Axles,
Shafts and Steel Forgings up to 70 Tons, Steel Castings, etc.**

Steel of every description forged, rolled, etc., into any form or article desired.

After a test of over 45 years, the . . . **KRUPP TIRE** *has proved itself the best in the market, and parties intending ordering Locomotives would do well to insert in their specifications that "KRUPP TIRES" be used on drivers, and thereby obtain an article which will give entire satisfaction. . . .*
